Get Involved & Volunteer!

PSGA is membership driven – we achieve only what we ourselves commit to. By sharing your energy and expertise, you will help make PSGA an even more effective professional resource. In fact, without you, we would not be able to offer any programs: annual conference, Funders Forums, lunchtime programs, trainings, networking events or anything!

As a volunteer, you will help us plan and implement projects, meet grantwriters and grantmakers, have some fun and sometimes learn inside information.

Opportunities to Volunteer

What some PSGA volunteers have said about their volunteer experiences

“Serving on committees is the best way to learn the latest news about which foundations funded whom, or staffing changes at funders, or open positions in the grantwriting world. The people on the committees broaden your insider knowledge, which makes you more valuable at work.”

“It is one of the best experiences I’ve ever had. The lunch program committee and the Funders Forum both offered invaluable opportunities to meet and connect with funders. PSGA definitely helped me open the door with funders of all types. And my affiliation with PSGA provides excellent networking opportunities with colleagues and peers from throughout the state.”

“I served PSGA in a variety of capacities, including the Board and the Specialized Training Committee. I found the experience to be one of the most rewarding in my long career, since it gave me an opportunity to support and strengthen the non-profit sector in my community while working alongside an extraordinary group of individuals. While membership in PSGA has been instructive, service on the Board enhanced my professional growth to an unexpected degree.”
